2025 Arts Trail

Congratulations to our talented artists who showcased their creative pieces at the Arts Trail last week. It was wonderful to see students proudly sharing their work with their families and taking part in the community celebrations. A big thank you to our amazing Ms Rachel for inspiring our students and bringing such a vibrant and creative display to life.

Kitchen/Garden Program

This term in our Kitchen Garden, students are exploring the world through food! From planting Asian greens to creating Indonesian and Japanese-inspired dishes, we're celebrating culture, connection, and gratitude for God's creation. Through teamwork in the garden and kitchen, students are growing not only fresh produce—but also a deeper sense of community, care, and joy in sharing food together.

I like eating and how we can be sustainable because we use the foods from the gardens - Fletcher 5CT

I liked eating the dumplings, apple crumble, and homemade pizzas - Ollie 5CT
